

MONITOR THE INTEGRITY OF TEMPERATURE & HUMIDITY-SENSITIVE PRODUCTS—ANYWHERE!

Use a ThermoChron—the World's Smallest, Lowest Cost Temperature Logger and the HydroChron, Humidity & Temperature Datalogger

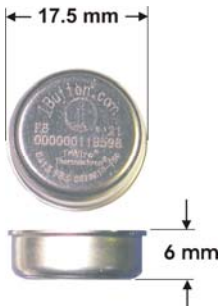

If you're shipping highly sensitive products like pharmaceuticals, the shift of even a few degrees can mean the difference between delivering a safe, effective product and rendering it completely useless. That's why you need to monitor the integrity of your products throughout the supply chain.

When you attach a tiny ThermoChron® anywhere on your shipment, you will know whether the temperature environment changed during transit, and by precisely how much. Using ThermoChron®, companies are discovering that their quality goes up while their operating costs come down.

The HydroChron® logs both the humidity and temperature within the same small package. The *iBTags*, the submersible version of the ThermoChron, can be inserted directly in most liquids.

The stainless-steel casing of a ThermoChron® makes it rugged, reusable, and portable. It is so small that it fits anywhere and is so inexpensive that you can put one on every carton, case, or pallet. With a quick touch, a temperature log covering many days can be downloaded to a PC or PDA.

For tiny size, low cost, and quality assurance throughout the supply chain, use a ThermoChron®. For more information visit our Web site at www.alphamach.com

- ACCURATE**—Up to +/- 0.5°C
- SMALL**—Fits Anywhere
- SUBMERSIBLE Version**—For liquid temperature monitoring
- SELF-POWERED**—No Cables
- INEXPENSIVE**—Starting at \$18 CAD
- DURABLE**—Stainless Steel, 10-yr. Life

Full Featured

- Selectable Alarms and Sample Rate
- Digital Temperature Range of -40°C to +85°C or 0°C to +125°C
- Logs Up to 8,000 Consecutive Temperature Measurements

Wide Range of Applications

- Supply Chain Shipping
- Quality control
- Refrigeration / Freezer Systems
- Prevention

Easy to Roll Out

- Basic Software Supplied with possibility of Custom Software solution
- Low-Cost PC and PDA-Based Readers Are Readily Available
